

# Speaking on Climate Change

## Climate Change: “The Rest of the Story”

Steve Goreham, controversial author of *Climatism! Science, Common Sense, and the 21<sup>st</sup> Century’s Hottest Topic* presents on climate change. Learn why our president and Congress are headed in the wrong direction. Learn why the polar bears are not in serious danger. Learn how global warming policies will raise your taxes, boost your electricity bills, and increase the cost of doing business and living our daily lives.

## Help Your Organization Learn the Real Story about Climate Change

Steve is an author, speaker, and researcher on environmental science and policy, as well as an engineer, business executive, and whitewater kayaker. He is a frequently invited guest on radio and TV. His presentations are controversial, yet down-to-earth, interactive, and seasoned with respectful humor—sure to interest the audience. Choose from one of the following topics, or a custom presentation:

- **Climate Change: The Rest of the Story**
- **Common-Sense Environmental Policy for Business**
